

# Management Platform for Clinical Rotations

An AMO partnership gives you free access to our management platform that you can use to view our clinical rotations.

## 100% MANAGED SERVICES

AMO manages all administrative work for you

- From compliance to scheduling and more, AMO staff handles all site administration.
- AMO's Visitor Experience team works with students to ensure satisfaction at their rotations.
- Clinical sites are vetted and onboarded to AMO platform with full details, which means less recruitment on your end.

## ACCESS TO OVER 250+ CLINICAL SITES

Guaranteed placement in programs across the country

With an AMO partnership, your students have access to U.S. clinical experiences that can be booked on demand.

AMO's management platform allows you to filter and select rotations that meet your requirements. This ensures students are enrolled in clinical experiences that align with your curriculum.

**Expanded U.S. clinical training capacity.** [Learn more >>](#)

## EASE OF USE

*Customize your experience*

While AMO manages clinical sites and student progress on your behalf, you also have access to this information with our software platform.

This is completely customizable to your administrative needs with different organizational features such as view options and column filters. Organize your view by the information that is most relevant to you such as:

- Application information
- Program information
- All available programs and filter by specialty and state

## TRACK STUDENT PROGRESS

*It's as easy as clicking a button*

The AMO management platform gives you tools to track a student's progress throughout the application process. Check a student's application status, view their application documents, see their program start and end date, find information about their program supervisor, and more.

**Learn more about the benefits of introducing our elective network to your students. Schedule a call with our International Partnerships Manager, Traci Dougherty.**
