## OUR MISSION

AMO connects hospitals, students, and schools on a single, easy-to-use platform. Our marketplace exists to meet the growing demand for U.S. clinical training and provides a comprehensive solution to the global physician shortage.

In 2013, AMO built a framework for clinical training as a service, with two goals in mind—making clinical training accessible to students worldwide and empowering healthcare systems to scale their revenue and create a workforce pipeline. Our centralized platform makes it easy to customize, scale, and monetize clinical training offerings. With all rotations in a centralized place, you can review student status, documents, and reporting with ease.

## OUR PROCESS

Our services change the way hospitals and health systems process visiting students and eliminates administrative burdens. There's no need for your hospital to market, create, or oversee programs; we do it for you at no cost!

1. Hospitals and clinical sites outline their student eligibility preferences, and set site capacities and program-specific details.
2. AMO builds out the program and shares it on our platform to recruit trainees. Hosts can utilize their management logins to view their program and upcoming student trainees.
3. AMO Advisors and Coaches process applications, oversee enrollment, and offer student support that enables hosts to focus on teaching.
4. AMO pays program sites on a weekly basis with a stipend for each student who rotates.

# Exploring Our Offerings and Current Partners

Join a network of leading healthcare providers and easily expand your clinical training. Guide students toward success through affiliations with recognized healthcare schools from around the world.

## FACTS AND FIGURES

## PARTNERSHIP BENEFITS

### Baseline Annual Revenue

Your institution could earn up to \$720,000 per year. This figure is based on the number of rotations filled by students.

### Creating Additional Teaching Capacity

Expand your UME and GME programming by utilizing AMO services to connect students with your teaching faculty.

### Recruitment Pipeline

Grow your clinical workforce pipeline by showcasing your organization to our network of 200K+ users.

## AMO WORKS WITH TOP U.S. INSTITUTIONS

## CHOOSE FROM 100+ SCHOOLS GLOBALLY
